15. Children should be supervised to ensure that they do not play with the appliance. SAVE THESE INSTRUCTIONS

SERVICING OF DOUBLE-INSULATED APPLIANCES

In a double-insulated appliance, two systems of insulation are provided instead of grounding. No grounding means is provided on a doubleinsulated appliance, nor should a means for grounding be added to the appliance. Servicing a doubleinsulated appliance requires extreme care and knowledge of the system, and should be done only by qualified service personnel. Replacement parts for a double-insulated appliance must be identical to the parts they replace. A double-insulated appliance is marked with the words "DOUBLE INSULATION" or "DOUBLE" INSULATED" The square within a square symbol, " 🗆 [:] may also be marked on the appliance.

USER MAINTENANCE INSTRUCTIONS

Cleaning your DAFNI brush:

- 1. Unplug the DAFNI brush from the power supply.
- 2. Always allow the DAFNI brush to cool before attempting to clean it. 3. Never immerse the appliance
- in water. 4. Wipe the outside of the DAFNI
- brush with a damp cloth.
- 5. Do not use sharp or abrasive detergents or corrosive products.

Storage:

- 1. Always allow the DAFNI brush to cool down before storing away.
- 2. When the DAFNI brush has cooled down, fold the power cord in the same way as it was first delivered in its packaging. Do not wrap the supply cord around the DAFNI

brush, as this can strain the cord and cause premature supply cord failure.

Any servicing should be performed by an authorized service representative.

Failure to operate:

This DAFNI styling appliance is a high-performance product, and if the unit is subjected to a large fluctuation in power during use, it may go into fail-safe mode to protect the unit from damage. Therefore, in the unlikely event that your DAFNI product does not operate correctly, check that your DAFNI product and power supply are switched on, and that power is available. If DAFNI brush emits rapid tones and the lights flash RED continuously, immediately disconnect the power and contact Conair Customer Service for advice at conair.com. If in doubt or for further advice, please contact Conair Customer Service for further advice.

Handling your DAFNI brush:

- 1. Do not insert foreign objects into
- your DAFNI brush.
- brush.
- it has been damaged.
- 6. If your product is damaged through misuse or abuse, this will not be covered under your
- your statutory rights. 7. The DAFNI brush is not intended for use by children under 16 years old, persons with reduced physical, sensory or mental capabilities, or persons with lack of experience and knowledge, unless they have been given supervision or instruction concerning the use of

4. Do not use your DAFNI brush if

5. Do not drop your DAFNI brush. guarantee. This does not affect

the appliance in a safe way by a

person responsible for their safety and understands the hazards involved.

- Cleaning and user maintenance should not be undertaken by children unless supervised.
- 9. Children should be supervised to ensure that they do not play with this appliance.
- 10. DAFNI brush should be used on dry hair only.
- 11. The DAFNI brush is NOT suitable for use with synthetic hair or synthetic wigs.

MANUFACTURER'S **GUARANTEE**

All DAFNI/Conair electrical products are individually tested before leaving the factory. However, in the unlikely event of the product proving defective due to faulty workmanship or materials, then, at its sole discretion, Conair will repair or replace the product with an identical or equivalent product within the warranty period at no charge. A replacement product assumes the remaining guarantee of the original product. When a product is exchanged, any replacement item becomes your property and the replaced item becomes property of DAFNI/ Conair. To claim this guarantee, please contact the authorized DAFNI/Conair retailer from which you purchased your DAFNI/Conair appliance. Ensure that you include a proof of purchase with any returned product. Therefore, be sure to keep your proof of purchase in a safe place. This guarantee only applies to genuine DAFNI/Conair products purchased through DAFNI/Conair-approved retailers and does not cover products repaired or serviced by anyone other than DAFNI/Conair personnel or DAFNI/Conair representatives.

Note that this guarantee may be invalidated when serial numbers or identification has been erased, damaged or modified. This does not affect your statutory rights. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Recycling and disposal:

Your DAFNI electrical product is classified as "electrical or electronic equipment" and must not be disposed of with other household or commercial waste at the end of its working life. When you have no further use for your DAFNI product, please dispose of it according to your local authority's recycling procedure. For more information, contact your local authority or the retailer from which you purchased this product.

OPERATING INSTRUCTIONS

DAFNI muse was designed for optimal styling based on its narrow and cylindrical structure. It is mainly suitable for short-to-medium hair.

DUAL VOLTAGE: This appliance will automatcally adjust the proper voltage. Use an adapter plug with correct configuration prior to use in inlet.

Instructions:

1. Make sure that your hair is completely dry before using the DAFNI brush.

- 2. Plug the power cord into the power supply. The DAFNI brush will play a single short tone and a single short light will come on indicating that it is now connected to the power supply. DAFNI is now in standby mode. In standby mode, if not in use for a long time, DAFNI will remind you to disconnect it from the power with a single short light every two minutes.
- 3. To turn on DAFNI, press the ON/ OFF button once. The DAFNI brush will produce a single short tone followed by a continuous short light every second to indicate that it is now heating up-please note that it is not yet ready to use.
- 4. When DAFNI reaches its operating temperature, it will play a single short tone and a white light will then illuminate continuously. DAFNI is now ready for use. During use, DAFNI may play a single short tone informing that the temperature is lower than optimal. In this case, it is recommended to brush more slowly so that the hair gets the right temperature for optimal results.
- 5. When you finish your styling session, press and hold the ON/ OFF button until DAFNI brush turns off. When turned off it will play a single short tone and the light will turn off. Disconnect from power when not in use. WARNING: DAFNI brush heater ceramic surface is very hot. Do not touch the ceramic surface or allow children or those with reduced physical, sensory or mental capabilities or lack of experience and knowledge to touch DAFNI brush while it is cooling.
- Failure: If the DAFNI brush detects a failure, it immediately emits rapid tones and flashes RED continuously. Immediately disconnect from power and contact Conair Customer Service

for advice

7. DAFNI will automatically shut down 60 minutes after turning on or if not in use for 10 minutes.

Safety features:

- **1.** This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature
- 2. Auto shutoff: DAFNI will shut off 60 minutes after it has been turned on or if it has been left unused for more than 10 minutes. In these two cases, it will automatically go into standby mode, and DAFNI heating surface will then start to cool. The DAFNI lights will turn off at the same time followed by a single short tone. Note that although the DAFNI brush is turned off. it is still connected to power and should be unplugged from electricity. If left connected to power, a short white wave will show every two minutes as a reminder to unplug from electricity.
- Failure mode: In the unlikely event of a control system error detection, the heaters will turn off, the DAFNI brush will emit rapid tones and the lights will flash RED continuously. In this case, immediately disconnect the power and contact Conair Customer Service for advice.
